DocRobot

RAG AI GPT

DocRobot: Your Corporate Intelligence

- Modern document processing with local AI
- Fast answers extracted from your company data
- Full control over information with zero data leaks

Universal Data Analysis (Inc. OCR)

- MS Office Support (Word, Excel, PowerPoint)
- LibreOffice formats (ODT, ODS) and PDF
- Advanced OCR: Image analysis (PNG, JPG, SVG)
- Processing of scanned contracts and handwritten notes
- Intelligent data extraction from tables and unstructured files

Comparison: Local AI vs. Cloud

Feature	Public AI (Cloud)	DocRobot (Local)
Privacy	Data on 3rd party servers	Data stays with you
Security	Risk of contract leaks	Air-gapped / On-Premise
Costs	Pay per token	Fixed, no usage fees
GDPR	Complicated	100% Ready

No Hallucinations: Verifiable Answers

- DocRobot doesn't invent – every claim must be cited
- Direct citations from your actual manuals and files
- **Example: 'According to Safety Policy, page 14, ...'**
- Crucial for legal, HR, and technical compliance

Technical Solution (Fictional Systems)

- Runs locally on your infrastructure (On-Premise)
- Model: DocRobot Engine (Enterprise Edition)
- Supports 15+ languages (Ask in EN about CZ files)

Security and Privacy

- 100% GDPR Friendly – data stays behind your firewall
- No sensitive contracts sent to public clouds
- Verifiable answers with direct source citations

Pricing and ROI

- One-time setup: 1,600 – 3,200 EUR
- Monthly support & updates: 160 – 400 EUR
- ROI (Return on Investment) within 3 months
